Proceedings of the Semi-Annual Meeting held at Indianapolis August 19, 1890 ... 1

Session of Tuesday, August 19 ... 1

The Appomattox Formation in the Mississippi Embayment (abstract); by W J McGee ... 2

The Redonda Phosphate; by C. H. Hitchcock ... 6

The Continents and the Deep Seas (abstract); by E. W. Claypole ... 10

What is the Carboniferous System? (abstract); by H. S. Williams ... 16

The Nita Crevasse (with figure 1); by L. C. Johnson ... 20

An Old Lake Bottom (with figure 2); by L. E. Hicks ... 25

The Cuyahoga Shale and the Problem of the Ohio Waverly (with plate 1); by C. L. Herrick ... 31

The Structure of a Portion of the Sierra Nevada (with figures 1–13); by G. F. Becker ... 49

Phosphate Deposits of the Island of Navassa (with figure 1); by E. V. D'Invilliers ... 75

A Last Word with the Huronian (with figures 1–3); by Alexander Winchell ... 85

The Nickel and Copper Deposits of Sudbury District, Canada (with figures 1–3); by Robert Bell. With an Appendix on The Silicified Glass-Breccia of Vermilion River, Sudbury District (with figure 4); by G. H. Williams ... 125

The Overthrust Faults of the Southern Appalachians (with plates 2, 3 and figure 1); by C. Willard Hayes ... 141

The Structure of the Blue Ridge near Harper's Ferry (with plates 4, 5); by H. R. Geiger and Arthur Keith ... 155

Note on the Geological Structure of the Selkirk Range (with figure 1); by G. M. Dawson ... 165

Graphic Field Notes for Areal Geology (with plate 6); by Bailey Willis ... 177

Antiquities from Under Tuolumne Table Mountain in California (with plate 7 and figure 1); by G. F. Becker ... 189

Notes on the Early Cretaceous of California and Oregon; by G. F. Becker ... 201

The Relation of Secular Rock-Disintegration to certain Transitional Crystalline Schists (with figures 1–4); by Raphael Pumpelly ... 209

The Geotectonic and Physiographic Geology of Western Arkansas (with plate 8 and figures 1–9); by Arthur Winslow ... 225

Glacial Lakes in Canada; by Warren Upham ... 243

Page.

Stratigraphy of the Carboniferous in Iowa (with plates 9, 10); by C. R. KEYES... 277

The Chazy Formation in the Champlain Valley (with plate 11); by EZRA BRAINERD... 293

The Petrography and Structure of the Piedmont Plateau in Maryland (with plate 12 and figures 1, 2); by G. H. WILLIAMS. With a supplement on A Geological Section across the Piedmont Plateau in Maryland (with figures 3–5); by C. R. KEYES... 301

Tertiary and Post-Tertiary Changes of the Atlantic and Pacific Coasts. With a note on The Mutual Relations of Land-Elevation and Ice-Accumulation during the Quaternary Period (with figure 1); by JOSEPH LE CONTE... 323

On the Lower Cambrian Age of the Stockbridge Limestone at Rutland, Vermont (with figures 1, 2); by J. E. WOLFF... 331

Composition of certain Mesozoic Igneous Rocks of Virginia; by H. D. CAMPBELL and W. G. BROWN... 339

The Cinnabar and Bozeman Coal Fields of Montana (with plate 13 and figures 1, 2); by W. H. WEED... 349

On the Recognition of the Angles of Crystals in Thin Sections (with plate 14); by A. C. LANE... 365

The Geology of Mount Diablo, California (with plate 15 and figures 1–3); by H. W. TURNER. With a supplement on The Chemistry of the Mount Diablo Rocks; by W. H. MELVILLE... 383

Two Belts of fossiliferous Black Shale in the Triassic Formation of Connecticut (with figures 1–3); by W. M. DAVIS and S. W. LOPER... 415

Mesozoic and Cenozoic Formations of Eastern Virginia and Maryland (with plate 16 and figure 1); by N. H. DARTON... 431

On the Triassic of Massachusetts (with plate 17); by B. K. EMERSON... 451

Glacial Grooves at the Southern Margin of the Drift (with plate 18 and figure 1); by P. MAX FOSHAY and R. R. HICK... 457

Post-Pleistocene Subsidence versus Glacial Dams (with plate 19); by J. W. SPENCER... 465

On the Geology of Quebec and Environs (with plate 20); by H. M. AMI... 477

The Comanche Series of the Texas-Arkansas Region; by R. T. HILL... 503

Carboniferous Fossils from Newfoundland (with plates 21, 22); by Sir J. WILLIAM DAWSON... 529

A proposed System of Chronologic Cartography on a Physiographic Basis, by T. C. CHAMBERLIN. With the Geological Dates of Origin of certain Topographic Features of the Atlantic Slope of the United States (with figures 1–6); by W. M. DAVIS... 541

Variations in the Cretaceous and Tertiary Strata of Alabama (with plate 23); by D. W. LANGDON, JR.... 587

Page.

Proceedings of the Third Annual Meeting, held at Washington December 29, 30 and 31, 1890 607
Session of Monday, December 29 607
Report of the Council 608
Election of Officers and Fellows 609
Obituary Notice 610
Discussion on the Geological Structure of the Selkirk Range; by C. D. WALCOTT 611
Evening Session, Monday, December 29 612
Illustrations of the Structure of Glacial Sand-Plains; by W. M. DAVIS and H. L. RICH 612
Glaciers of the St. Elias Region, Alaska; by I. C. RUSSELL 612
Session of Tuesday, December 30 613
Evening Session, Tuesday, December 30 615
First Annual Report of the Committee on Photographs 615
Session of Wednesday, December 31 631
On the Occurrence of *Megalonyx jeffersoni* in central Ohio (abstract); by EDWARD ORTON 635
On the Family Orthidæ of the of the Brachiopoda (abstract); by JAMES HALL 636
On a Jointed Earth Auger for Geological Exploration in Soft Deposits (abstract); by N. H. DARTON 638
On the Occurrence of Diamonds in Wisconsin; by F. G. KUNZ 638
On the Occurrence of Fire Opal in a Basalt in Washington State; by G. F. KUNZ 639
A Fallen Forest and Peat Layer beneath Aqueous Deposits in Delaware; by H. T. CRESSON 640
Register of the Washington Meeting 644
List of Officers and Fellows of the Geological Society of America 645
Index 653

PUBLICATIONS OF THE GEOLOGICAL SOCIETY OF AMERICA.

Regular Publications.

The Society issues a single serial publication entitled Bulletin of the Geological Society of America. This serial is made up of *proceedings* and *memoirs*, the former comprising the records of meetings, with abstracts and short papers, lists of Fellows, etc., and the latter comprising the longer papers accepted for publication. The matter is issued, soon as practicable after acceptance, in covered brochures which are distributed at once to Fellows and exchanges.

The publications are sold to Fellows and the public in full volumes as well as in separate brochures. The volume prices are, to Fellows a variable amount, depending on the cost of the volume (volumes 1 and 2, $4 50 each); to libraries, $5.00 per volume; and to the public ten dollars ($10) per volume. The brochure prices are given below.

Volume 1, covering the work of the Society from its organization to the end of 1889, is complete. It comprises the following brochures:

Brochure.	Pages.	Plates.	Figures.	Price to Fellows.	Price to the Public.
Organization, Proceedings of Toronto Meeting, and Papers read at Toronto. J. J. Stevenson, *Secretary*	1–86	1	1–12, 1–7	$1.40	$2.75
Origin of the Rock Pressure of Natural Gas in the Trenton Limestone of Ohio and Indiana. Edward Orton	87–98	------	------	.15	.30
Notes on the Surface Geology of Alaska. I. C. Russell	99–162	2	------	.90	1.80
Note on the Pre-Paleozoic Surface of the Archean Terranes of Canada; The Internal Relations and Taxonomy of the Archean of Central Canada. A. C. Lawson	163–194	------	------	.40	.80
Structure and Origin of Glacial Sand Plains. W. M. Davis	195–202	3	1–4	.20	.40
The Pre-Cambrian Rocks of the Black Hills. C. R. Van Hise	203–244	4, 5	1–5	.80	1.60
Orographic Movements in the Rocky Mountains. S. F. Emmons	245–286	------	------	.50	1.00
On Glacial Phenomena in Canada. Robert Bell	287–310	------	------	.30	.60
On the Pleistocene Flora of Canada. Sir William Dawson and D. P. Penhallow	311–334	------	1	.35	.65
The Value of the Term "Hudson River Group" in Geologic Nomenclature. C. D. Walcott	335–356	------	1	.30	.60
Some Results of Archean Studies. Alexander Winchell	357–394	------	1–12	.55	1.05
Post-Tertiary Deposits of Manitoba and the adjoining Territories of Northwestern Canada. J. B. Tyrrell	395–410	------	------	.20	.40
Sandstone Dikes. J. S. Diller	411–442	6–8	1–8	.90	1.75
Tertiary and Cretaceous Deposits of Eastern Massachusetts. N. S. Shaler	443–452	9	------	.20	.40

Brochure.	Pages.	Plates.	Figures.	Price to Fellows.	Price to the Public.
The Stratigraphy of the "Quebec Group." R. W. Ells	453–468	10	------	$0.30	$0.55
Some additional Evidences bearing on the Interval between the Glacial Epochs. T. C. Chamberlin	469–480	------	------	.15	.30
The Cuboides Zone and its Fauna; a Discussion of Methods of Geologic Correlation. H. S. Williams	481–500	11–13	------	.45	.90
The Calciferous Formation in the Champlain Valley. Ezra Brainerd and H. M. Seely. With a Supplement on the Fort Cassin Rocks and their Fauna. R. P. Whitfield	501–516	------	------	.20	.40
Proceedings of the New York Meeting. J. J. Stevenson, *Secretary*. (With Index, Title-page, List of Contents, etc., for the Volume	517–593 i–xii	------	------	1.25	2.45

Volume 2, covering the work of the Society for the year 1890, is now complete. It comprises the following brochures:

Brochure.	Pages.	Plates.	Figures.	Price to Fellows.	Price to the Public.
Proceedings of the Semi-Annual Meeting held at Indianapolis. J. J. Stevenson, *Secretary*	1–30	------	1–2	$0.35	$0.70
The Cuyahoga Shale and the Problem of the Ohio Waverly. C. L. Herrick	31–48	1	------	.25	.45
The Structure of a Portion of the Sierra Nevada of California. G. F. Becker	49–74	------	1–13	.35	.65
Phosphate Deposits of the Island of Navassa. E. V. D'Invilliers	75–84	------	1	.15	.30
A Last Word with the Huronian. Alexander Winchell	85–124	------	1–3	.45	.90
The Nickel and Copper Deposits of Sudbury District, Canada. Robert Bell; with an appendix on The Silicified Glass-Breccia of Vermilion River, Sudbury District. Geo. H. Williams	125–140	------	1–4	.20	.40
The Overthrust Faults of the Southern Appalachians. C. Willard Hayes	141–154	2–3	1	.30	.55
The Structure of the Blue Ridge near Harper's Ferry. H. R. Geiger and Arthur Keith	155–164	4–5	------	.20	.40
Note on the Geological Structure of the Selkirk Range. G. M. Dawson	165–176	------	1	.15	.30
Graphic Field Notes for Areal Geology. Bailey Willis	177–188	6	------	.20	.35
Antiquities from under Tuolumne Table Mountain in California; Notes on the Early Cretaceous of California and Oregon. G. F. Becker	189–208	7	1	.30	.60
The Relation of Secular Rock-Disintegration to Certain Transitional Crystalline Schists. Raphael Pumpelly	209–224	------	1–4	.20	.35
The Geotectonic and Physiographic Geology of Western Arkansas. Arthur Winslow	225–242	8	1–9	.35	.65
Glacial Lakes in Canada. Warren Upham	243–276	------	------	.35	.70

Brochure.	Pages.	Plates.	Figures.	Price to Fellows.	Price to the Public.
Stratigraphy of the Carboniferous in Central Iowa. Charles R. Keyes	277–292	9–10	------	$0.30	$0 55
The Chazy Formation in the Champlain Valley. Ezra Brainerd	293–300	11	------	.20	.35
The Petrography and Structure of the Piedmont Plateau in Maryland. G. H. Williams; with a supplement on A Geological Section across the Piedmont Plateau in Maryland. C. R. Keyes	301–322	11	1–5	.35	.65
Tertiary and Post-Tertiary Changes of the Atlantic and Pacific Coasts; with a note on The Mutual Relations of Land-Elevation and Ice-Accumulation during the Quaternary Period. Joseph Le Conte	323–330	------	1	.15	.25
On the Lower Cambrian Age of the Stockbridge Limestone at Rutland, Vermont. J. E. Wolff	331–338	------	1–2	.15	.30
Composition of Certain Mesozoic Igneous Rocks of Virginia. H. D. Campbell and W. G. Brown	339–348	------	------	.15	.30
The Cinnabar and Bozeman Coal Fields of Montana. W. H. Weed	349–364	13	1–2	.30	.60
On the Recognition of the Angles of Crystals in thin Sections. A. C. Lane	365–382	14	------	.35	.70
The Geology of Mount Diablo, California. H. W. Turner; with a supplement on The Chemistry of the Mount Diablo Rocks. W. H. Melville	383–414	15	------	.40	.80
Two Belts of Fossiliferous Black Shale in the Triassic Formation of Connecticut. W. M. Davis and S. W. Loper	415–430	------	1–3	.20	.40
Mesozoic and Cenozoic Formations of Eastern Virginia and Maryland. N. H. Darton	431–450	16	1	.30	.55
On the Triassic of Massachusetts. B. K. Emerson	451–456	17	------	.20	.40
Glacial Grooves at the Southern Margin of the Drift. P. Max Foshay and R. R. Hice	457–464	18	1	.25	.45
Post-Pleistocene Subsidence versus Glacial Dams. J. W. Spencer	465–476	19	------	.20	.35
On the Geology of Quebec and Environs. H. M. Ami	477–502	20	------	.35	.70
The Comanche Series of the Texas-Arkansas Region. R. T. Hill	503–528	------	------	.30	.55
Carboniferous Fossils from Newfoundland. Sir J. William Dawson	529–540	21–22	------	.35	.65
A proposed System of Chronologic Cartography on a Physiographic Basis. T. C. Chamberlin; with The Geological Dates of Origin of certain Topographic Forms on the Atlantic Slope of the United States. W. M. Davis	541–586	------	1–6	.50	1.00
Variations in the Cretaceous and Tertiary Strata of Alabama. D. W. Langdon, Jr	587–606	23	------	.40	.80
Proceedings of the Washington Meeting. J. J. Stevenson, *Secretary*. (With Index, List of Contents, etc., for the Volume.)	607–662 i–xiv	-----	------	.80	1.60

Irregular Publications.

In the interests of exact bibliography, the Society takes cognizance of all publications issued either wholly or partly under its auspices. Each author of a memoir receives 30 copies, and is authorized to order any additional number at a slight advance on cost of paper and presswork; and these separate brochures are identical with those of the editions issued and distributed by the Society. Contributors to the proceedings also are authorized to order any number of separate copies at a slight advance on cost of paper and presswork; but these separates are bibliographically distinct from the brochures issued by the Society.

The following separates of parts of Volume 2 have been issued:

Editions uniform with the Brochures of the Bulletin.

Pages 31–48,	plate	1— 30	copies.	January 12, 1891.

—, cited on baselevel plains... 461
— — — glacial history... 250, 266
—, Quotations from, on glacial lakes... 244
—, Title of paper by... 614
CHAMPLAIN valley, The Chazy formation in the... 293
CHANNELS, submarine... 324
CHAPMAN, E. J., cited on glacial history... 262
CHATTAHOOCHEE river, General section on the 600
CHATTANOOGA black shale defined... 143
CHAUVENET, W., cited on certain equations.. 368
CHAZY formation (The) in the Champlain valley; Ezra Brainerd... 293
CHEMISTRY of Navassa phosphates... 81
— (The) of the Mount Diablo rocks; W. H. Melville... 403
CHEMUNG, Age of the... 19
CHESAPEAKE bay, Submarine channel in... 324
— formation, Definition of the... 432
CHESTER, A. H., cited on the Huronian... 111
CHICKAMAUGA limestone defined... 143
CHONETES *illinoisensis*, Illustration of... 48
CINNABAR (The) and Bozeman coal fields of Montana; W. H. Weed... 349
CLAIBORNE formation, Description of the... 597
CLARKSBURG mountain, Structure of... 211
CLARK, W. B., cited on the Cretaceous... 432
—, Record of discussion by... 613
—, Reference to work of... 433
—, Remarks on Alabama geology... 606
CLAYPOLE, E. W., cited on shore lines... 263
— — — the Cuyahoga shale... 36
—, Record of discussion by... 6, 9, 16, 20
—; The continents and the deep seas... 10
CLAYTON limestone, Description of the... 504
CLEVE, P. T., cited on phosphates... 9
COAL fields of Montana... 349
— in California... 392
— — Iowa... 284
COAST changes... 324
— ranges, Rocks of the... 167
— —, Structure of the... 390
COBB, COLLIER, Reference to work of... 567
COHUTTA conglomerate, Definition of the... 152
COLEMAN, A. P., cited on Canadian geology... 167
COLORADO, Crystalline rocks of... 221
COLUMBIA formation, Description of the... 448
COLUMBIAN university, Resolution of thanks to officers of... 642
COMANCHE PEAK chalk... 504
COMANCHE series, Definition of the... 504
— — (The) of the Texas-Arkansas region; R. T. Hill... 503
COMPOSITION of certain Mesozoic igneous rocks of Virginia; H. D. Campbell and W. G. Brown... 339
COMSTOCK, T. B., cited on geology of Texas.. 522
CONGLOMERATE formation, Mode of... 223
—, Cambrian, Derivation of... 210
CONNASAUGA shale defined... 143
CONNECTICUT, Ancient topography of... 550
—, Triassic formation of... 415
CONOCARDIUM *alternistriatum*, Description of.. 45
—, Illustration of... 48
CONRAD, T. A., Reference to work of... 433
CONTINENTAL changes... 324
— features, Persistence of... 10
— movements... 465
— — in the Atlantic slope... 565
CONTINENTS (The) and the Deep Seas; E. W. Claypole... 10
CONYBEARE, W. D., cited on taxonomy... 16
COOK, G. H., cited on traps... 339
—, Quotation from, on topography... 552
COOPER, E. K., Discovery of Navassa by... 75
COOSA shale defined... 143
COPE, E. D., Record of discussion by... 615
COPPER deposits of Canada... 125
CORDILLERA, Definition of the... 165
COUNCIL, Report of the... 608
CRAGIN, F. W., cited on Kansas geology... 518
CREDNER, H., cited on phyllites... 305
CRESSON, H. T.; A fallen forest and peat layer underlying aqueous deposits in Delaware... 640
CRETACEOUS and Tertiary strata (Variations in the) of Alabama; D. W. Langdon, Jr. 587
— coals... 351
— (Notes on the early) of California and Oregon; G. F. Becker... 201
— peneplain, the... 419
— rocks of Alabama... 588
— — — California... 393
— — — the Atlantic slope... 434

—; Note on the geological structure of the Selkirk range 165
—, Record of discussion by 614, 633, 634, 637
—, Remarks on glacial lakes 275
— — — the Shasta group 207
—, Title of paper by 611
DAWSON, J. W.; Carboniferous fossils of Newfoundland 529
—, Collections by 479
—, Title of paper by 633
DEFORMATION and erosion, Relation of 234
—, General modern 466
— in the Atlantic slope 315, 448, 565
— — — Selkirk range 174
— — — Sierra Nevada 51
— — Texas 518
— of crystalline rocks 322
— — Paleozoic rocks 156, 228
— — the Appalachians 141
— — — Coast ranges 399
— — — Triassic 455, 418
DEGRADATION, Relation of, to deformation 234
DE LA BECHE, HENRY, cited on the Carboniferous rocks 17
DELAWARE, Ancient forest in 640
— river, Submarine channel of 324
DELTAS, Ancient 247
DENISON, Definition of the 504
DENUDATION, Subaërial 557
DEPOSITION, Conditions of, in Texas 518

Page

DEPOSITION, Conditions of the Triassic 454
DEPOSITS, Pleistocene, of Delaware 640
DESCRIPTION of new species 42, 532
DEVONIAN rocks of Montana 351
— — — Ohio 32
DIABASE, Triassic 321
DIABLO, Mount, Geology of 383
DIAMONDS (On the occurrence of) in Wisconsin; G. F. Kunz 638
DIKE, The Stamford 211
— in the Sierra Nevada 51
DILLER, J. S., Acknowledgments to 642
—, Collections by 204
—; First annual report of the Committee on Photographs 615
—, on Committee on Photographs 2
—, Photographs by 619
—, Record of discussion by 634
—, Remarks on the Shasta group 207
D'INVILLIERS, E. V., Record of discussion by 632, 633
—; The Phosphate deposits of the island of Navassa 75
—, Title of paper by 632
DISCINA *magnifica*, Description of 46
DISINTEGRATION, Relation of, to schist 209
— of Piedmont rocks 305
DISTRIBUTION of organisms 14
DOE river, Rocks of 216
DOMES, Formation of 69
D'ORBIGNY, A., cited on Mesozoic rocks 11
DOUGLASS, E. M., Odometer devised by 182
DRIFT, Glaciation at margin of 457
DUCK CREEK chalk, Definition of 504
DUMBLE, E. T., Record of discussion by 613
—, Remarks on Texas geology 527
DUNCAN, P. M., cited on distribution of organisms 15
DUTTON, C. E., cited on the San Rafael swell 575
—, Photographs by 622
DWIGHT, W. B., Photographs by 616

EAKINS, L. G., Photographs by 630
EARTH auger (On a jointed) for geological exploration in soft deposits; N. H. Darton 638
ECHO lake, Rocks of 116
ELDRIDGE, G. H., Acknowledgments to 642
—, Reference to work of 358, 361
ELECTION of Fellows 1
— — officers and fellows 609
ELEVATION, Relation of, to glaciation 329
ELEVATIONS in Canada 252, 255
ELLS, R. W., Collections by 478
EMERSON, B. K., cited on topography 551
—; On the Triassic of Massachusetts 451
—, Record of discussion by 614, 631
—, Remarks on Mesozoic traps 348
— — — the Triassic 430
— — — rock disintegration 223
—, Title of paper by 634
EMMONS, E., cited on the Champlain group 293
—, Collections by 479
EMMONS, S. F., cited on Piedmont rocks 306
ENDLICH, F. M., cited on rock disintegration 222
ENGLAND, Carboniferous rocks in 16
EOCENE rocks of Alabama 588
— — — California 393
— — — the Atlantic slope 434
EROSION and deformation, relation of 149, 234
— in the Sierra Nevada 63
ERUPTIVE rocks of the Piedmont region 307
EUTAW, Description of the 590

FALKLAND islands, Physiography of the 14
FAULTING, Analysis of 54
FAULTS (The overthrust) of the southern Appalachians; C. W. Hayes 141
